### **Andrew J. Nathan**

**Professor of Political Science, Columbia University**

Takashi Inoguchi is a leading scholar of international relations and foreign policies in Asia. In this striking compendium he has assembled some of the world's best analysts on a broad range of Asian issues.

### **Joseph S. Nye**

**Harvard University**

In this masterful two-volume collection, Professor Takashi Inoguchi draws on a life-time of thinking and research on Japan, Asia, and world affairs to provide a grand portrait of the foreign policies and international relations of Asia. In fifty-four chapters written by leading scholars, this handbook surveys the complex and shifting domestic and international policies and politics that define modern Asia. What is remarkable about these volumes is their scope and depth. Chapters that explore the sweeping themes and theories of Asian international relations are matched with other chapters that delve into the intricacies of regional subsystems and the domestic determinants of foreign policy. This is a major achievement.
