**J.G.バックハウス他編
ドイツと西欧における戦後のケインズ主義
Post-war Keynesianism in Germany
and Western Europe**

Backhaus, Jürgen G. / Chaloupek, G. et al. (eds.), Post-war Keynesianism in Germany and Western Europe. (The European Heritage in Economics and the Social Sciences) 228 pp. 2025:11 (Springer, GW) <756-101>
ISBN 978-3-032-00497-0 hard ¥42,632 (税込)

This edited volume discusses the reception and application of Keynesian economics in Europe during the 20th century. The main focus of the book is the case of West Germany, where the strong position of Keynesian economics (primarily of the neoclassical synthesis type) at most universities since the 1950s contrasted with Ordoliberalism and the concept of the Social Market Economy, which became dominant German economic policy after the war. Chapter contributions focus on important pioneers of theoretical or political Keynesianism, such as Erich Schneider, Andreas Paulsen, and Karl Schiller in Germany, Kurt Rothschild in Austria, Gottfried Bombach in Switzerland; the influence of Keynes on other economists; and the relevance of Keynesian ideas in Austria and Norway.

Providing a survey of important theoretical economists in post-war Germany, this volume will be of interest to researchers and students of economic policy, contemporary political, social and economic systems, history of economic thought and political history.

- Presents a survey of several of the most important theoretical economists in post-war Germany
- Discusses the reception and application of Keynesian economics in Europe during the 20th century
- Examines the interplay between Keynesian ideas and other economic doctrines like Ordoliberalism

国際法における自決権 The Right to Self-Determination in International Law

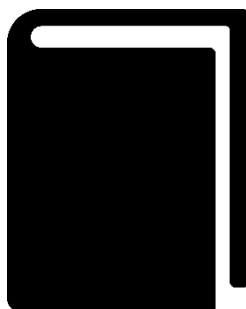

Weatherall, Thomas, The Right to Self-Determination in International Law. (Elements of International Law) 336 pp. 2026:1 (Oxford U. Pr., US) <756-617>

ISBN 978-0-19-779807-2

hard ¥28,809 (税込)

ISBN 978-0-19-779808-9

paper ¥6,399 (税込)

Self-determination is a cornerstone of modern international law—an inalienable right that empowers peoples to freely determine their political status and pursue their economic, social, and cultural development. Enshrined in Article 1 of the United Nations Charter and Article 1 common to both the International Covenant on Civil and Political Rights and the International Covenant on Economic, Social and Cultural Rights, self-determination stands internationally as a right to independence and domestically as a foundation for representative government.

This book offers a clear, objective, and comprehensive account of the right to self-determination in international law. Designed for both scholars and practitioners, it navigates the complex legal landscape with precision, drawing on treaties, state practice, UN resolutions, and landmark judgments of the International Court of Justice. It explores the historical roots, normative status, and dual dimensions—international and domestic—of the right, while also addressing the obligations of states and mechanisms for enforcement.

By illuminating the legal content, tensions, and practical applications of self-determination, this volume provides readers with the tools to understand and apply one of the most fundamental principles shaping our world today. It is as an essential resource for those engaged in international law, human rights, and global governance.

hard ¥30,607 (税込)

ISBN 978-0-19-894603-8

paper ¥7,284 (税込)

After the devastation of two world wars, Europe sought to prevent future conflict through new institutions—one of the most significant being the European Court of Human Rights. In this updated edition, Angelika Nussberger provides a comprehensive introduction to the Court, examining its mission, structure, procedures, and evolving jurisprudence. The book explores how the Court has become a cornerstone of modern international and human rights law, while also facing mounting internal and external pressures. These include a surge in applications, political resistance to external criticism, and challenges in maintaining neutrality on contentious issues like migration and criminal justice. It also addresses tensions with national courts as well as attacks on the Court's authority by various actors. This second edition also examines the impact of Russia's cessation as a party to the Euro-

pean Convention on Human Rights in 2022, as well as increasing resistance to implement judgements from nations such as Turkey. Furthermore, it discusses recent landmark rulings on climate change and the reversal of its approach towards the protection of minorities in the Baltic States. Through careful analysis of landmark cases—from *Lawless v. Ireland* to *Klimaseniorinnen v. Switzerland*—this book illustrates the Court's profound influence on European social and political discourse and ultimately asks whether the Court can continue to serve as "Europe's conscience" amid rising populism and shifting values.

**R.J.ペッカネン他編
2024 年の日本の総選挙
Japan Decides 2024:
The Japanese General Election**

McElwain, Kenneth M. / Pekkanen, R. J. / Smith, D. M. (eds.), Japan Decides 2024:
The Japanese General Election. 356 pp. 2025:11(Palgrave Macmillan, UK) <756-
696 >
ISBN 978-3-031-98796-0 paper ¥10,028 (税込)

This edited volume is the fifth in the *Japan Decides* series and the premier venue for scholarly research on the 2024 general election for the Japanese House of Representatives. The 2024 election was historic, with Japan's long-ruling LDP suffering its second worst showing at the ballot box since it was founded. The volume features a broad range of scholarship from top researchers in Japan, the United States, and Europe. After an introduction that sets the stage, the second section analyzes political parties, including the LDP, CDP, Ko-meito, and Ishin. The third section explores the campaign, and features chapters on the policy positions of candidates, social media, public opinion, party manifestos, and turnout. The fourth section analyzes the major policy issues surrounding the election, including the Unification Church and money scandals, women's representation, LGBTQ+ rights, child-care, macroeconomics and inflation, and Japan's role in the global economy. The conclusion synthesizes the original research in the volume's chapters to provide a coherent overall explanation for understanding the election in both historical and comparative perspective.

2024 年のイギリス総選挙 Britain Votes: The 2024 General Election

Clark, Alistair / Thompson, Louise / Wilks-Heeg, S. (eds.), Britain Votes: The 2024 General Election. (Hansard Society Series in Politics and Government) 320 pp. 2025:10 (Oxford U. Pr., UK) <756-680>
ISBN 978-0-19-790341-4 paper ¥5,826 (税込)

Britain Votes: The 2024 General Election brings together a team of distinguished academic experts to examine every facet of a record-breaking election. This was a contest that produced the highest swing in the post-war era, delivering a Labour landslide, and reducing the Conservatives to their lowest ever level of parliamentary representation. This volume helps explain how and why this remarkable electoral turnaround was achieved. The contributions analyse the election results in detail and evaluate the campaigns and electoral performance of all the main parties. There is in-depth assessment of the electoral contests in Scotland, Wales, and Northern Ireland. Every aspect of the campaign is scrutinized, from party funding to media coverage and the parties' strategies for digital engagement. The volume also highlights a number of critical challenges to the electoral process in the UK and also asks what the outcome in 2024 might suggest for the next election.

世界政治のグローバル化 第10版
The Globalization of World Politics. 10th ed.

Baylis, John / Owens, Patricia / Smith, Steve (eds.), *The Globalization of World Politics*. 10th ed. 700 pp. 2026:4 (Oxford U. Pr., UK) <756-697>
ISBN 978-0-19-889980-8 paper ¥14,571 (税込)

Celebrating its landmark tenth edition, *The Globalization of World Politics* remains the best-selling and most comprehensive introductory text to international relations.

Fully updated and expanded, this milestone edition continues to tackle the most urgent and complex challenges that dominate international relations today. Written by leading scholars in the field, *The Globalization of World Politics* now includes brand new chapters on ecological thought in international relations, the rise of the modern international order, and Marxist theories of international relations.

Tailored pedagogical features are seamlessly woven throughout the text and are designed to help students to cultivate analytical thinking and bridge the gap between theory and real-world practice. Interactive activities such as multiple-choice questions and the 'Opposing Opinions' feature foster active learning, enhancing students' understanding of key concepts and debates.

New to this edition

- New Chapter 3: The rise of the modern international order by Ayşe Zarakol
- New Chapter 8: Marxist theories of international relations by Maïa Pal
- New Chapter 13: Ecological thought in International Relations by Andrea Brock
- Expanded coverage of non-Western approaches, particularly perspectives from the Global South, are woven throughout all the chapters to emphasise the importance of viewing international relations from representative and varied perspectives.
- Updated exploration of the contemporary crisis of the liberal international order and the challenge of the second Trump administration to ideas about 'globalization'.

J.L.Garfield 著 規範と自然
—規範性の源についてのヒュームの記述
Norms and Nature: A Humean Account of the
Sources of Normativity

Garfield, Jay L., Norms and Nature: A Humean Account of the Sources of Normativity. 272 pp. 2026:1 (Oxford U. Pr., US) <756-5>
ISBN 978-0-19-783976-8 hard ¥22,407 (税込)

In *The Treatise of Human Nature*, Hume argued that we are *normative animals*, and he treats human nature in the context of, and on a par with, non-human nature. In *Norms and Nature*, Jay L. Garfield argues that Hume was right, and to demonstrate and explain this fact, he shows how the animals that we are construct norms, learn to conform to norms, and how we are transformed by the normative structures we come to inhabit. Garfield draws on the work of the American psychologist Edward Chace Tolman, who argued that the intentional could be naturalized without reducing it to the non-intentional and in the thought of those philosophers who shared that vision, including those in the Prasangika Madhyamaka tradition, as well as Nietzsche, Schopenhauer, Dewey, Wittgenstein, and Sellars.

Norms and Nature examines what it is to be human in the full sense of the term: to be an organism that only comes to self-consciousness in virtue of being thrown into a world already pregnant with meaning; meaning that can only be constituted collectively. To be human is to be one whose very being is constituted both by the web of customs into which we are born. In this investigation, Garfield shows how much of our existence as persons depends upon a set of interlocking virtuous spirals that enable the development of the communities that make normativity possible, and on the development of the sets of norms that enable those communities to sustain themselves. Garfield argues that it is this very aspect of our nature which provides hope that we can improve ourselves. *Norms and Nature* offers a rich sense of our place as a species in the natural world, and of our places as individuals in the context of the social order that we create, and that in turn create us.

労働手段による商品の生産 — 価値法則の復活

Production of Commodities by Means of Labour: Rehabilitation of the Law of Value

Helmedag, Fritz, Production of Commodities by Means of Labour: Rehabilitation of the Law of Value. (Springer Studies in Alternative Economics) 380 pp. 2025:11 (Springer, GW) <756-103>
ISBN 978-3-032-01456-6 hard ¥22,568 (税込)

Revitalises the labour theory of value as a framework for determining production prices and explores its implications for economic theory and policy

This book revitalises the labour theory of value as a framework for determining production prices and explores its implications for economic theory and policy. Through an in-depth review of economists such as Adam Smith, David Ricardo, Karl Marx, and Piero Sraffa, it uncovers that the profit distribution in proportion to material costs generally prevents the division of labour between separate industries. Instead, it reveals that profit sharing in relation to the labour input - the original productive power - is the only consistent method to establish an equilibrium under conditions of 'free'

competition. In addition, profit maximisation in the vertically integrated wage sector, which satisfies demand financed out of wages, leads to a 100% rate of profit (or rate of exploitation). The associated real unit labour costs amount to 50%. The remnant 'luxury' department must adapt to this level. Empirical evidence confirms this finding. The author demonstrates that economic theory grounded upon the law of value can offer welfare-enhancing policies. This book will intrigue scholars and students of economics, as well as anyone interested in economic theory and the history of economic thought.

〔英語版〕D.コーエン著 経済小史
A Brief History of the Economy.

Cohen, Daniel, A Brief History of the Economy. 140 pp. 2025:11 (Polity Pr., UK) <756-274>
ISBN 978-1-5095-6830-7 hard ¥4,257 (税込)

Economic growth is the religion of the modern world. It promises a solution to the most basic drama of our human existence: wanting what we don't have. But we live in a time when the frenzied pursuit of economic growth is jeopardizing the planet's viability and our very survival as a species. How did we get to this point in human history? How did we allow the pursuit of growth to become the apotheosis of human development?

To answer these questions, the distinguished economist Daniel Cohen takes us on a journey to understand human desire and the different registers on which it has expressed itself throughout history. He brings his panoramic grasp of the subject to bear on the key stages of social and economic development, from the Neolithic revolution to the digital age. The ideas of the great economists - from Adam Smith and Karl

Marx to Joseph Schumpeter and John Maynard Keynes - are situated in their historical contexts and explained clearly and concisely. The result is a triumph of ambition and brevity: a history of the economy in 150 pages.

This book - the final work written by Daniel Cohen - will appeal to anyone interested in the economy and in the tension between a limited world and unlimited desires that lies at the heart of the great challenges we face today.

賃金の決定・交渉 1500～1950 年
A Historical Casebook of Wage Formation: Wage Determination and Wage Bargains, 1500-1950

Ongaro, Giulio / Stephenson, Judy Z. / Mocarelli, L. (eds.), A Historical Casebook of Wage Formation: Wage Determination and Wage Bargains, 1500-1950. (Palgrave Studies in Economic History) 370 pp. 2025:12 (Palgrave Macmillan, UK) <756-1228>

ISBN 978-3-031-91929-9

hard ¥45,140 (税込)

This edited collection presents 16 new historical cases of wage formation and wage bargaining across the early modern and pre-industrial world.

Recent literature has revived an established interest in the economic history of wage formation, underlining the gaps still existing in our understanding of wages' composition, quantification, and process of structuring. This collection will shed light on these points, examining diverse topics including in-kind and monetary payments, bonuses and supplements, work contracts, differentials between skilled and unskilled workers, women's work, slavery and coerced labour contracts, and wages in both diachronic and comparative perspective: how wages' structure and composition changes across times and spaces (both in terms of geographical areas and urban-rural environments).

The book presents case studies from various geographical areas (from South America to India) from the preindustrial period to the contemporary age and features related contributions on the manufacturing sector, agriculture, mining, and public sectors. The book will be a valuable resource for scholars and students of pre-industrial labour markets in economic, social and labour history.

Chapters 6 and 10 are available open access under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International License via link.springer.com.

D.Crowther 他編 CSR、ESG、持続可能性 CSR, ESG and Sustainability

Crowther, David / Seifi, Shahla (eds.), CSR, ESG and Sustainability. (Developments in Corporate Governance and Responsibility 27) 292 pp. 2026:2 (Emerald, UK) <756-382>

ISBN 978-1-80592-770-9

hard ¥28,168 (税込)

Sustainability seems to be at the top of everyone's agenda these days with much effort devoted by businesses to drive towards that sustainability. At the same time CSR (corporate social responsibility) and its successor ESG (environment social and governance) feature heavily in corporate reporting and in their strategic planning. The question therefore arises as to whether planning according to CSR and / or ESG principles assists the drive towards sustainability. This book discusses the relationship between these concepts in a variety of locations and variety of circumstances around the world, considering issues and how they are being dealt with globally. The focus is upon the current situation, while also considering the extent to which the focus is changing, so much that

we need to think about new approaches to our understanding of behaviour and differing effects in practice. The international origins of the contributors to this volume make this an original contribution taking some of the best ideas from around the world. Developments in Corporate Governance and Responsibility publishes in association with the International Conference on Corporate Social Responsibility run by the Social Responsibility Research Network (SRRNet.org). Every volume contains commissioned chapters written specifically for the conference. The series presents current debates and research about specific aspects of social responsibility and shows these from global and interdisciplinary perspectives. Each volume presents a different theme related to the broad field of corporate social responsibility. It aims to spark debate and encourage discussion between people from different backgrounds as a way of developing and promoting best practice. The papers are global and invite contributions ensuring that the quality remains high and the scope of coverage is comprehensive and coherent.

Text and Cases. 15th ed.

Schroeder, Richard G. / Clark, Myrtle W. / Cathey, Jack M., Financial Accounting Theory and Analysis: Financial Accounting Theory and Analysis. 15th ed. 768 pp. 2025:10 (Wiley, US) <756-464>
ISBN 978-1-394-33653-1 paper ¥29,651 (税込)

Master Financial Accounting Theory, Standards, and Applications with Expert Insights and Case Studies

Understanding the theoretical foundations of financial accounting is crucial for navigating today's complex and evolving financial landscape. In the fifteenth edition of *Financial Accounting Theory and Analysis: Text and Cases*, a team of distinguished accounting scholars explores how accounting standards shape financial reporting choices and analyzes the characteristics of firms based on their accounting methods.

With comprehensive discussions on key frameworks and professional standards, students gain a deep understanding of the principles guiding accounting practice. Through a combination of rigorous theoretical analysis, empirical research, and real-world case studies, this leading textbook strengthens students' critical thinking and decision-making skills while providing future professionals with the analytical and ethical foundation needed to succeed in today's global financial environment.

Providing essential knowledge for careers in financial reporting, auditing, and corporate finance, *Financial Accounting Theory and Analysis: Text and Cases* is ideal for senior undergraduate and graduate courses in Financial Accounting Theory, Advanced Financial Accounting, and Accounting Research.

Martini, Mario / Wendehorst, Christiane (Hrsg.), KI-VO: Verordnung über Künstliche Intelligenz. Kommentar. 2. Aufl. 1200 S. 2025:11 (Beck, GW) <756-472>
ISBN 978-3-406-83929-0 Geb. ¥49,909 (税込)

Zum Werk

Der Einsatz von Künstlicher Intelligenz in diversen Bereichen des Alltags nimmt stetig zu. Der europäische Gesetzgeber hat mit der KI-VO auf diese Entwicklungen reagiert und ein umfassendes Regelwerk erlassen, das fast jedes Unternehmen, öffentliche Stelle und auch Einzelpersonen in der einen oder anderen Rolle betrifft. 2024 wurde die Verordnung verabschiedet. Die ersten Teile der KI-VO sind seit 2. Februar 2025 anwendbar, weitere Teile seit 2. August 2025.

Dieser Großkommentar erläutert sämtliche Vorschriften der KI-VO ausführlich, strukturiert und gut verständlich. Er geht wissenschaftlich in die Tiefe und stellt dennoch einen engen Praxisbezug her. Dank komprimierter Einleitung durch die Herausgebenden finden die

Leserinnen und Leser einen schnellen Zugang zu dieser komplexen Rechtsmaterie.

Vorteile auf einen Blick

- ausführliche Kommentierung aller Normen der KI-VO übersichtlich aufbereitet
- wissenschaftlich fundiert und gleichzeitig praxisnah dank vieler Beispiele
- stellenweise Erläuterungen zu Überschneidungen bzw. Abgrenzbarkeit zu anderen Regelwerken, etwa zur DS-GVO.

Reusch, Philipp / Chibanguza, Kuuya Josef (Hrsg.), KI-VO: Verordnung über Künstliche Intelligenz. Kommentar. (Gelbe Erläuterungsbücher) 700 S. 2026:1 (Beck, GW) <756-474>

ISBN 978-3-406-79167-3

Ln. ¥32,353 (税込)

Die europäische Verordnung über künstliche Intelligenz (KI-VO bzw. AI Act) setzt bisher nicht dagewesene Standards und stellt neue Vorgaben an Unternehmen und Organisationen in Bezug auf die Entwicklung und den Einsatz von KI-Modellen und -Systemen. Diese Anforderungen sind ausgehend von dem sog. risikobasierten Ansatz für die verschiedenen Formen von KI unterschiedlich ausgestaltet.

Die KI-VO zielt dabei zum einen auf die Wahrung ethischer Standards und Transparenz ab und will zugleich strenge Sicherheitsvorgaben einführen. Dabei wird als eines der zentralen Ziele nicht zuletzt der Schutz personenbezogener Daten sowie die Wahrung der Privatsphäre angestrebt. Die neuen Regelungen und

Verpflichtungen bringen, basierend auf den Erfahrungen im Zusammenhang mit anderen umfassenden neuartigen Rechtsrahmen, rechtliche Unsicherheiten für alle Akteure mit sich. Hier setzt der Kommentar an, um Hilfe bei der Anwendung und Auslegung der neuen Vorgaben zu geben, sodass Unternehmen und die weiteren Beteiligten ihre Technologien erfolgreich implementieren können.

Der Kommentar stellt die einzelnen Vorschriften kompakt und praxisorientiert dar und gibt einen schnellen, aber dennoch fundierten Überblick über die nun für Künstliche Intelligenz geltenden Regelungen.

Vorteile auf einen Blick

- kompakte und praxisnahe Kommentierung
- fundierter Überblick über die neuen Regelungen

American Law: An Introduction. 4th ed.**

Friedman, Lawrence M. / Hayden, Grant M., American Law: An Introduction. 4th ed. 408 pp. 2026:3 (Oxford U. Pr., US) <756-477>
ISBN 978-0-19-779312-1 hard ¥37,345 (税込)
ISBN 978-0-19-779313-8 paper ¥8,525 (税込)

This book provides an accessible introduction to the American legal system and is a vital resource to anyone interested in understanding how this social system works.

Its focus is on law in practice, the role of the law in American society, and how the social context affects the living law of the United States. It covers the institutions of law creation and application, law in American government, American legal culture and the legal profession, American criminal and civil justice, and civil rights. Now in its fourth edition, the book has been widely used in both undergraduate and graduate courses as an introduction to the legal system.

This new edition follows the same structure as the previous editions while providing a thorough updating and reworking of the text. This edition reflects upon what has happened in the years since the third edition was published in 2017, the rise of social media, the strains of climate change, the globalization of risk, the pandemic, and the immigration crisis. The book addresses how these events and evolutions have shaped our fundamental comprehension of the workings of the American legal system today.

Feminizing Political Institutions: How Women Change
Perceptions of Politics and Improve Democracy

Bauer, Nichole M., *Feminizing Political Institutions: How Women Change Perceptions of Politics and Improve Democracy*. 264 pp. 2026:4 (Oxford U. Pr., US) <756-1048>

ISBN 978-0-19-784152-5

hard ¥8,525 (税込)

Feminizing Political Institutions considers representation from a new perspective by looking at how changes within the demographic composition of a political institution can change the way citizens think about and engage with politics. It argues that the recent gains made in women's representation across all levels of government has the potential to undo the "white-masculine" stereotypes long associated with political institutions. The book advances and tests an original theory of *institutional stereotype change* that connects levels of women's descriptive representation to the stereotypic perceptions people hold of political institution. People see political institutions through a lens of masculinity, and the masculine lens of politics limits the participation of women, feminine-typed individuals, people of color, and other minoritized groups. The author argues that when women's descriptive representation increases so that there are more women serving in elected political office people will start to associate political institutions with more feminine qualities. People not only see political institutions as masculine, but people see institutions through the lens of white-masculinity.

Breaking down the perception of political institutions as "white" institutions requires a greater disruption in representation beyond simply electing more women. The book posits that the presence of more women of color in political institutions can have a particularly potent effect when it comes to breaking down the raced-gendered stereotypes associated with politics; it empirically tests how women's descriptive representation changes the masculinity of politics and how women of color's descriptive representation changes perceptions of white-masculinity. This book, therefore, shows that women's descriptive representation shifts the stereotypic perceptions of political institutions.

Elect Women for a Change: The Path to
Gender Parity in Politics

Krook, Mona Lena, Elect Women for a Change: The Path to Gender Parity in Politics. 180 pp. 2025:12 (Polity Pr. UK) <756-1058>

ISBN 978-1-5095-6693-8

hard ¥14,927 (税込)

ISBN 978-1-5095-6694-5

paper ¥5,324 (税込)

Over the last three decades, women have made significant inroads into political life. Yet the equal and inclusive sharing of political power remains elusive. The number of women in political positions still falls short of full equality, and even when women enter politics, they often continue to be marginalized and do not reflect the full diversity of women as a group.

Written by a leading authority on women and politics, this incisive book makes the case for gender parity and identifies strategies to achieve it. Offering a roadmap for advocates, Mona Lena Krook argues that parity is not simply about numbers, but also about the ability of women, in all their diversity, to exercise equal voice and influence. Based on academic research as well as conversations with political women around the world, she assembles evidence showing that parity - defined in terms of access, power, and diversity - advances equality and human rights, promotes the election of qualified and diligent politicians, fosters more responsive public policy, and enhances democratic legitimacy.

Identifying socialization, discrimination, and backlash as key barriers to gender parity, she presents and assesses a wide range of strategies developed around the globe to counteract these obstacles, including data collection, training programs, gender quotas, gender-sensitive institutions, and anti-violence laws. The book concludes with a call to action, highlighting the role that a variety of actors, including international organizations, governments, parliaments, political parties, individual politicians, and activists, might play in advancing this agenda. In sum: everyone can do something to advance parity in the political world.

ポスト冷戦の軍備管理の政治**
**Obama and the Bomb: New START, Russia and
the Politics of Post-Cold War Arms Control**

Jones, Frank, Obama and the Bomb: New START, Russia and the Politics of Post-Cold War Arms Control. 446 pp. 2025:11 (Palgrave Macmillan, UK) <756-676>
ISBN 978-3-032-02571-5 hard ¥32,600 (税込)

This book is the first study of how President Barack Obama and his administration used the negotiation and ratification of an arms control treaty, the New Strategic Arms Reduction Treaty (New START), as a vehicle for advancing one of the president's primary foreign policy objectives, a reset of US relations with Russia in the early years of his first term of office. It is a study of the administration's efforts to move from a president's strategic vision to defining that vision as a policy priority and ultimately, successfully negotiating what the president deemed the first and most important element of the reset agenda.

東アジアと EU における地域統合と制度変化
Regional Integration and Institutional Change in
East Asia and the European Union

Voogsgeerd, Herman / Akita, Shigeru (eds.), Regional Integration and Institutional Change in East Asia and the European Union: A Study of Drivers of Regionalism and Their Limits. 206 pp. 2025:11 (Springer, GW) <756-1250>
ISBN 978-981-9510-75-7 hard ¥32,600 (税込)

This volume addresses the drivers and mechanisms of institutional change in Europe and East Asia during times of international crisis. Under what conditions and through what processes does a form of regionalism or regionalization change? Why is there a different pace of development, and what mechanism is responsible for institutional change? Is it simply copying, or are there other mechanisms at work? Why do regions institutionalize, and why don't others?

We will distinguish between "regionalization" and "regionalism." While the former is a bottom-up process involving all kinds of citizens, non-governmental organizations, and academic circles, the latter is a top-down activity. It is the work of states, public international organizations, and diplomats. This book focuses on both phenomena. One

could argue that East Asia first experienced regionalization, followed by regionalism. In the EU, however, it may be the other way around, as international organizations and elites have largely driven the integration project thus far.

J.O.ズルエタ編 日本におけるフィリピン人とフィリピンにおける日本人

Disrupted Mobilities: Filipinos in Japan and Japanese in the Philippines

Zulueta, Johanna O. (ed.), Disrupted Mobilities: Filipinos in Japan and Japanese in the Philippines. 260 pp. 2025:12 (Palgrave Macmillan) <756-1043>
ISBN 978-981-9502-56-1 hard ¥35,108 (税込)

This volume chronicles migrant lives in Japan and the Philippines during the COVID-19 pandemic. In particular, it focuses on the Japanese in the Philippines and the Filipinos in Japan, making it a valuable resource for those doing research on migrations between these two countries, and/or about migrations in Asia, in general.

Analyzing data gathered through interviews, surveys, content analyses, and ethnographies, the authors meticulously present critical findings and narrate migrants' experiences of COVID-19. While the world has now eased back into a "state of normality," the significant societal changes that have occurred cannot be denied. Hence, the book argues that it is imperative for the public to

be informed how various types of migrants have experienced the pandemic, leading them to explore innovative ways to adapt to conditions during this health crisis.

The chapters in this volume are important in informing not only scholars studying migration, but also policy-makers, NGOs, and the general public, as to how non-citizens in these two countries have grappled with the challenges posed by the pandemic. It will also be a valuable resource for communities and governments around the world as they prepare for similar health crises in the near future.

P.キヴィスト他著 市民圏ー入門
The Civil Sphere: A Concise Introduction

Kivisto, Peter / Sciortino, Giuseppe, The Civil Sphere: A Concise Introduction. 136 pp. 2025:12 (Polity Pr., UK) <756-908>
ISBN 978-1-5095-6056-1 hard ¥13,860 (税込)
ISBN 978-1-5095- 6057-8 paper ¥4,257 (税込)

This book provides a comprehensive introduction to Jeffrey C. Alexander's Civil Sphere Theory (CST). It reconstructs the development and key features of this theory and explains why it offers an original and compelling way of thinking about civil society.

The book reveals the ways in which the various components of CST come together to offer an illuminating framework for making sense of the complexities, ambiguities, and tensions inherent in modern democratic societies located in highly differentiated and pluralistic societies. It compares CST to civil society theories from the past and present, along with the idea of the societal community and Habermas's theory of the public sphere.

Among the topics addressed are the relationship between CST and Alexander's approach to cultural sociology, the binary character of cultural codes, normative philosophy, the role of social movements in effecting civil repair, and the idea of multiculturalism as a new mode of incorporation that makes possible a politics of recognition. The book assesses the main criticisms of CST and concludes by showing how CST has proven to be an ongoing, evolving project that has generated a wide range of empirical research and stimulated further theoretical refinement and development.

A.ハラヴェ著 情報研究入門 An Introduction to Information Studies

Halavais, Alexander, *An Introduction to Information Studies: Datifying People, Places, and Things*. 304 pp. 2025:12 (Polity Pr., UK) <756-939>
ISBN 978-1-5095-6384-5 hard ¥14,927 (税込)
ISBN 978-1-5095-6385-2 paper ¥5,750 (税込)

We live our entire lives in an information society, but too frequently feel like we are rushing to catch up with the latest technological changes. Despite the overwhelming influence of information networks and their potential as tools for social change, many find it difficult to put these changes into a broader sociotechnical context.

An Introduction to Information Studies is a cutting-edge introductory textbook which provides a broad survey of the field. Weaving together important insights from information science, history, regulation and culture, the text frames the social changes that have marked the first decades of the twenty-first century, and highlights some of the most significant issues we face today. Topics covered include organization, search, metadata, knowledge, open standards, and AI. The text provides a starting point for understanding the connective threads that guide technologies, and the relationships between social power and technological change that remain constant in relation to information. Understanding these relationships is essential to engaging ethically with large-scale social data systems, and to shaping our collective futures.

Full of accessible examples and pedagogical features, *An Introduction to Information Studies* is a field-defining textbook for undergraduates in information studies, social data science, and information and communication fields more generally. It is also an important resource for scholars, policymakers, artists and engineers.

ISBN 978-1-5095-4334-2

paper ¥5,324 (税込)

Huey P. Newton was called many things in his time: revolutionary, genius, criminal, even the most surveilled human being in world history. Yet, little is known about him still because of persistent distortions to his name and legacy as co-founder of the Black Panther Party.

In this new and much-needed intellectual biography, political theorist Delio Vasquez establishes Newton as a true and original philosopher. Newton's compassion for the suffering of the people of the streets led him to develop innovative theories for how the most oppressed could spearhead revolutionary change against rising technocracy through communal defense of loving communities. The Panthers forged alliances with Black student unions and street gangs, Hollywood elites and poor whites, the gay liberation movement and Third World nations.

Newton left behind dozens of unpublished manuscripts analyzing anthropology, politics, feminist thought, education, philosophy, evolutionary biology, and theology - ideas presented here for the first time. Vasquez also puts into proper perspective Newton's late descent into addiction and madness, a direct effect of U.S. government techniques of war that targeted his mind, body, and soul in ways that are still all too relevant. Today, Newton's maxim "I am we," resounds more than ever.

アメリカのユダヤ人史ハンドブック The Oxford Handbook of American Jewish History

Rabin, Shari / Cohen, Michael R. (eds.), The Oxford Handbook of American Jewish History. (Oxford Handbooks) 558 pp. 2026:2 (Oxford U. Pr., US) <756-1237>
ISBN 978-0-19-008100-3 hard ¥44,387 (税込)

Though never more than a tiny percentage of the population, Jews have been persistent--if perplexing--participants in the American community at least since they first arrived in New Amsterdam in 1654. This volume creates a vibrant dialogue among the varied approaches to the study of American Jews, taking stock of the field and working to move it forward in conversation with American history and modern Jewish history. Its authors are drawn from the ranks of the senior scholars who pioneered American Jewish history, often from the vantage point of other areas of study, as well as younger scholars, both those trained as historians and those studying American Jews from other disciplines. The Handbook will act as a guide for outside scholars looking to under-

stand American Jews and for those within American Jewish history interested in up-to-date accounts of key themes in the field. Its essays explore a variety of conceptual frameworks that have been and continue to be important for understanding American Jews and move forward into the arena of American Jewish studies, highlighting how new methodologies can enhance scholarly understandings. Taken as a whole, the Oxford Handbook of American Jewish History makes a compelling case for the importance of this community for American and world histories.

第二次世界大戦必携 全2巻 第2版 A Companion to the Second World War. 2 vols. 2nd ed.

Zeiler, Thomas W. / DuBois, Daniel M. (eds.), A Companion to the Second World War. 2 vols. 2nd ed. (Wiley Blackwell Companions to World History) 1056 pp. 2025:12 (Wiley-Blackwell, UK) <756-1253>
ISBN 978-1-394-20869-2 hard set ¥83,437 (税込)

Explores the evolving historiography of World War II across cultures and continents

A Companion to the Second World War, Second Edition is a foundational reference for understanding how scholars have interpreted, debated, and revised the history of the Second World War. Spanning two volumes and more than sixty essays, this extensively updated edition brings together leading voices in the field to examine the military, political, cultural, social, and economic dimensions of the war. The volume's expanded scope reflects the field's evolution, with new chapters dedicated to underrepresented areas of research, including Indigenous perspectives, gender and sexuality, religious responses, environmental dimensions, and digital cultural memory.

By combining rigorous historiographical analysis with global breadth, the second edition of the *Companion* enables readers

to engage with both well-established topics and emerging areas that challenge conventional narratives. The second edition significantly expands and updates the original collection to reflect the latest developments in the field. New chapters introduce cutting-edge research on topics such as LGBTQ+ communities during the war, Indigenous experiences across multiple continents, and the global religious responses to the conflict. The edition also breaks new ground with essays on the Tokyo War Crimes Trial, the historiography of the Marshall Plan, the role of video games in shaping popular memory, and the cultural significance of wartime cartoons and comics. Updated chapters revisit key subjects including colonialism in Asia, European societies in wartime, and the environmental dimensions of the conflict to incorporate new historiographical approaches and source material.

An essential resource for those seeking a critical guide to the field's historiography and its future directions, *A Companion to the Second World War, Second Edition*:

- Offers a truly global perspective with chapters on Africa, the Caribbean, the Middle East, and the Pacific
- Situates key issues and developments within the broader trajectory of World War II studies
- Provides updated analyses of key military strategies, campaigns, and international diplomacy
- Engages with evolving debates around war crimes, historical memory, and revisionism
- Highlights new historiographical approaches to economics, technology, and environmental impacts during the war
- Analyzes topics such as neutrality, colonialism, wartime societies, and postwar memory through fresh methodological and thematic lenses

Underscoring the dynamic and interdisciplinary nature of current scholarship in the field, *A Companion to the Second World War, Second Edition* is ideal for graduate students, researchers, and instructors in areas including modern history, international relations, and memory studies. It is also an indispensable reference for academic libraries and professionals in historical research, publishing, and curriculum development.
